

# # Google Analytics Setup & Usage Guide for Nutri Kitchen

## ## Complete Step-by-Step Instructions

---

### ## 📄 PART 1: SETTING UP GOOGLE ANALYTICS 4 (GA4)

#### ### Step 1: Create Google Analytics Account

1. **\*\*Go to Google Analytics\*\***
  - Visit: <https://analytics.google.com/>
  - Sign in with your Google account (Gmail)
2. **\*\*Start Setup\*\***
  - Click "Start measuring" button
  - Or click "Admin" (gear icon) → "Create Account"
3. **\*\*Account Details\*\***
  - Account name: `Nutri Kitchen`
  - Click "Next"
4. **\*\*Property Details\*\***
  - Property name: `Nutri Kitchen Website`
  - Reporting time zone: `(GMT+05:30) India Standard Time - Mumbai, Kolkata`
  - Currency: `Indian Rupee (₹)`
  - Click "Next"
5. **\*\*Business Information\*\***
  - Industry category: `Food & Drink` or `Retail`
  - Business size: `Small (1-10 employees)`
  - How you intend to use Google Analytics: Check all that apply
  - Click "Create"
  - Accept Terms of Service
6. **\*\*Data Collection\*\***
  - Platform: Select **\*\*\*Web\*\*\***
  - Click "Next"

#### ### Step 2: Get Your Measurement ID

1. **\*\*Set up Data Stream\*\***
  - Website URL: `https://www.nutrikitchen.com`
  - Stream name: `Nutri Kitchen Main Site`
  - Enhanced measurement: Leave **\*\*ON\*\*** (recommended)
  - Click "Create stream"
2. **\*\*Copy Your Measurement ID\*\***
  - You'll see a Measurement ID like: `G-XXXXXXXXXX`
  - **\*\*IMPORTANT\*\***: Copy this ID!

#### ### Step 3: Update Your Website

1. **\*\*Open your website files\*\***
  - File: `index.html`
  - Find: `G-XXXXXXXXXX` (appears twice)
  - Replace with your actual Measurement ID
2. **\*\*Update products.html\*\***
  - File: `products.html`
  - Find: `G-XXXXXXXXXX` (appears twice)
  - Replace with your actual Measurement ID
3. **\*\*Save and upload files to your server\*\***

### ### Step 4: Verify Installation

1. **\*\*Install Chrome Extension\*\*** (Optional but helpful)
  - Search for "Google Analytics Debugger" in Chrome Web Store
  - Install the extension
2. **\*\*Test Tracking\*\***
  - Visit your website: <https://www.nutrikitchen.com>
  - Go back to Google Analytics
  - Click "Realtime" in left menu
  - You should see yourself as a visitor!

---

## ## PART 2: UNDERSTANDING GOOGLE ANALYTICS DASHBOARD

### ### Main Sections Explained:

#### #### 1. **\*\*REALTIME\*\*** (Left Menu)

- **\*\*What it shows\*\***: Visitors on your site RIGHT NOW
- **\*\*Use it to\*\***:
  - Test if tracking works
  - See live traffic during promotions
  - Monitor social media campaign results

#### #### 2. **\*\*REPORTS\*\*** (Left Menu)

##### ##### **\*\*A. Acquisition Reports\*\***

- **\*\*What it shows\*\***: Where your visitors come from
- **\*\*Key Metrics\*\***:
  - **\*\*Organic Search\*\***: Visitors from Google, Bing (SEO traffic)
  - **\*\*Direct\*\***: People who type your URL directly
  - **\*\*Social\*\***: Visitors from Facebook, Instagram, Twitter
  - **\*\*Referral\*\***: Visitors from other websites
- **\*\*How to access\*\***:
  - Reports → Life cycle → Acquisition → Traffic acquisition

##### ##### **\*\*B. Engagement Reports\*\***

- **\*\*What it shows\*\***: What people do on your site
- **\*\*Key Metrics\*\***:
  - **\*\*Page views\*\***: Total pages viewed
  - **\*\*Average engagement time\*\***: How long they stay
  - **\*\*Pages per session\*\***: How many pages they visit
- **\*\*Popular Pages\*\***:
  - Reports → Life cycle → Engagement → Pages and screens
  - Shows which products are most viewed!

##### ##### **\*\*C. Demographics Reports\*\***

- **\*\*What it shows\*\***: Who your visitors are
- **\*\*Key Info\*\***:
  - Age groups
  - Gender
  - Locations (cities, states)
  - Devices (mobile, desktop, tablet)
- **\*\*How to access\*\***:
  - Reports → User → Demographics

##### ##### **\*\*D. Tech Reports\*\***

- **\*\*What it shows\*\***: Technology visitors use
- **\*\*Key Info\*\***:
  - Browser (Chrome, Safari, etc.)
  - Operating system

- Screen resolution

- **\*\*How to access\*\***:

- Reports → User → Tech

#### #### 3. **\*\*EXPLORE\*\*** (Left Menu)

- **\*\*What it is\*\***: Custom reports
- **\*\*Use it to\*\***: Create specific reports you need

---

## ## 🎯 PART 3: KEY METRICS TO MONITOR DAILY/WEEKLY

### ### Daily Checks (5 minutes):

#### 1. **\*\*Total Users Today\*\***

- Reports → Snapshot
- Look at "Users" card

#### 2. **\*\*Realtime Visitors\*\***

- Realtime → Overview
- See current active users

#### 3. **\*\*Top Pages Today\*\***

- Reports → Engagement → Pages and screens
- Date range: Today

### ### Weekly Checks (15 minutes):

#### 1. **\*\*Traffic Sources\*\***

- Where are most visitors coming from?
- Is organic search growing?
- Which social media works best?

#### 2. **\*\*Most Popular Products\*\***

- Which product pages get most views?
- Focus marketing on popular products!

#### 3. **\*\*User Behavior\*\***

- Average time on site
- Bounce rate (people leaving immediately)
- Pages per session

#### 4. **\*\*Location Data\*\***

- Which cities buy most?
- Focus ads on those areas!

### ### Monthly Checks (30 minutes):

#### 1. **\*\*Compare Month-to-Month\*\***

- Set date range to "Last 30 days"
- Compare with previous 30 days
- Look for growth trends

#### 2. **\*\*Conversion Tracking\*\***

- How many visitors click "Buy Now"?
- Track button clicks

---

## ## 📱 PART 4: USING GOOGLE ANALYTICS MOBILE APP

#### 1. **\*\*Download App\*\***

- Android: Play Store - "Google Analytics"
- iOS: App Store - "Google Analytics"

2. **\*\*Sign In\*\***
  - Same Google account
3. **\*\*Features\*\***:
  - Check stats on the go
  - Realtime monitoring
  - Push notifications for traffic spikes

---

## ## 🛎 PART 5: SETTING UP ALERTS

### ### Custom Alerts for Your Business:

1. **\*\*Traffic Drop Alert\*\***
  - Admin → Property → Custom Alerts
  - Create alert when daily users drop >20%
2. **\*\*Traffic Spike Alert\*\***
  - Get notified when traffic increases suddenly
  - Good for viral posts!

---

## ## 💡 PART 6: PRACTICAL USE CASES FOR NUTRI KITCHEN

### ### 1. **\*\*Track Product Performance\*\***

**\*\*Question\*\***: "Which product page is most popular?"

**\*\*Steps\*\***:

- Reports → Engagement → Pages and screens
- Look for `/products.html` in the list
- Sort by "Views" column

**\*\*Action\*\***: Focus ads on popular products!

### ### 2. **\*\*Measure Marketing Campaign Success\*\***

**\*\*Question\*\***: "Did my Instagram post bring visitors?"

**\*\*Steps\*\***:

- Post something on Instagram with link
- Wait 24 hours
- Reports → Acquisition → Traffic acquisition
- Look for "Social" row
- Click to see which platform

**\*\*Action\*\***: Do more of what works!

### ### 3. **\*\*Optimize for Mobile Users\*\***

**\*\*Question\*\***: "Do I have many mobile visitors?"

**\*\*Steps\*\***:

- Reports → User → Tech → Platform
- See Mobile vs Desktop split

**\*\*Action\*\***: If 60%+ mobile, ensure site works perfectly on phones!

### ### 4. **\*\*Find Best Posting Time\*\***

**\*\*Question\*\***: "When are most people online?"

**\*\*Steps\*\*:**

- Reports → Realtime → Overview
- Check different times of day
- Note peak hours

**\*\*Action\*\*:** Post on social media during peak times!

### ### 5. **\*\*Geographic Targeting\*\***

**\*\*Question\*\*:** "Which cities are my customers from?"

**\*\*Steps\*\*:**

- Reports → User → Demographics → Location
- See city-wise breakdown

**\*\*Action\*\*:** Run Google Ads in top cities!

---

## ## PART 7: IMPORTANT REPORTS TO CHECK

### ### Monthly Business Review (Last day of month):

#### 1. **\*\*User Overview\*\***

\\`

- Total users this month: \_\_\_\_\_
- New vs Returning: \_\_\_\_\_
- Growth from last month: \_\_\_\_\_%

\\`

#### 2. **\*\*Traffic Sources\*\***

\\`

- Organic Search: \_\_\_\_\_%
- Direct: \_\_\_\_\_%
- Social: \_\_\_\_\_%
- Referral: \_\_\_\_\_%

\\`

#### 3. **\*\*Top 5 Pages\*\***

\\`

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_

\\`

#### 4. **\*\*Top 5 Cities\*\***

\\`

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_

\\`

---

## ## PART 8: TRACKING SPECIFIC EVENTS (Advanced)

### ### Track "Buy Now" Button Clicks:

Already implemented! Your website tracks:

- Button clicks on "Buy Now"
- Product views

- Cart additions

**\*\*To see this data\*\*:**

- Reports → Engagement → Events
- Look for event names

---

## ## PART 9: INTERPRETING KEY METRICS

### ### What Numbers Mean:

1. **\*\*Users\*\***
  - Total individual people who visited
  - **\*\*Good\*\***: Growing month-over-month
  - **\*\*Target\*\***: 1000+ users/month by Month 6
2. **\*\*Sessions\*\***
  - Total visits (one person can have multiple sessions)
  - Usually higher than Users
3. **\*\*Bounce Rate\*\***
  - % of people who leave without clicking anything
  - **\*\*Good\*\***: Below 50%
  - **\*\*Bad\*\***: Above 70%
  - **\*\*Action if bad\*\***: Improve homepage, make CTAs clearer
4. **\*\*Average Engagement Time\*\***
  - How long people stay
  - **\*\*Good\*\***: 2+ minutes
  - **\*\*Excellent\*\***: 4+ minutes
  - **\*\*Action if low\*\***: Improve content, add videos
5. **\*\*Pages per Session\*\***
  - How many pages they view
  - **\*\*Good\*\***: 3+ pages
  - **\*\*Action if low\*\***: Better internal linking, "related products"

---

## ## PART 10: TROUBLESHOOTING

### ### Problem: "No data showing"

**\*\*Solutions\*\*:**

1. Wait 24-48 hours (data can take time)
2. Check if Measurement ID is correct
3. Visit your site yourself (should show in Realtime)
4. Check if ad blockers are affecting tracking
5. Verify code is before closing `</head>` tag

### ### Problem: "Data seems wrong"

**\*\*Solutions\*\*:**

1. Exclude your own visits (IP exclusion in Settings)
2. Check if bot traffic is included
3. Compare with server logs

---

## ## PART 11: QUICK REFERENCE - WHERE TO FIND WHAT

| What You Want to Know            | Where to Find It    |
|----------------------------------|---------------------|
| How many people are on site NOW? | Realtime → Overview |

| Total visitors today/week/month? | Reports → Snapshot |  
 | Where do visitors come from? | Reports → Acquisition |  
 | Most popular products? | Reports → Engagement → Pages |  
 | Which city has most visitors? | Reports → User → Demographics |  
 | Mobile vs Desktop? | Reports → User → Tech |  
 | How long do people stay? | Reports → Engagement → Overview |  
 | Did my post bring traffic? | Realtime (right after posting) |

---

## ## 🏠 PART 12: LEARNING RESOURCES

### ### Free Courses:

1. **Google Analytics Academy**
  - <https://analytics.google.com/analytics/academy/>
  - Free official certification
  - Takes 4-6 hours
2. **YouTube Tutorials**
  - "Google Analytics 4 Tutorial for Beginners"
  - Watch 2-3 videos to understand basics

---

## ## ✅ SETUP CHECKLIST

- [ ] Created Google Analytics account
- [ ] Got Measurement ID (G-XXXXXXXXXX)
- [ ] Replaced placeholder in index.html (2 places)
- [ ] Replaced placeholder in products.html (2 places)
- [ ] Uploaded files to server
- [ ] Verified tracking in Realtime
- [ ] Downloaded mobile app
- [ ] Bookmarked key reports
- [ ] Set up weekly review reminder

---

## ## 📞 SUPPORT

### **Google Analytics Help:**

- <https://support.google.com/analytics/>

### **Common Questions:**

- How long for data? 24-48 hours
- Can I see historical data? Yes, once tracking starts
- Is it free? Yes, completely free!

---

## ## 🎯 YOUR FIRST WEEK ACTION PLAN

### ### Day 1 (Today):

- [ ] Create GA account
- [ ] Get Measurement ID
- [ ] Update website files
- [ ] Verify in Realtime

### ### Day 2-7:

- [ ] Check Realtime daily
- [ ] Visit your site yourself to test
- [ ] Share with friends, see them in Realtime

### ### Week 2:

- [ ] Check first weekly report
- [ ] Note down traffic sources
- [ ] Identify top pages

### ### Month 1:

- [ ] Run first monthly report
- [ ] Set baseline metrics
- [ ] Plan improvements based on data

---

**\*\*Your Google Analytics is now set up and ready to track your success!\*\*** 🎉

Start by getting your Measurement ID and you'll be tracking visitors within 24 hours.
